

Walk MS 2013 Volunteer Positions

Volunteer Sign-in Tent: Direct volunteers to their assignments, answer any questions about volunteering, and hand out volunteer t-shirts. Make sure all waivers are complete. Shift times vary.

Registration: Register and check-in walkers and teams, collect waivers and fill out prize vouchers. Training is provided prior to event.

Food Tent: Set-up food at appropriate times, restock and manage table.

Greeters: Help welcome walkers and teams as they arrive and direct them to where they need to go. This is an important position, as it provides the first point of contact for walkers. Some greeters may also be asked to be flexible and fill-in where needed.

T-Shirt Distribution: Distribute t-shirts to participants who qualify.

Route Monitors: Help assure walkers are on the right route by holding flags and cheering them on. Please bring whatever you would like to help inspire and cheer on the walkers, such as clappers, pom-poms, signs, etc. Volunteers in this position will need to be able to stand for several hours and be able to walk the route. This position is great for pairs and small groups.

Rest Stops: Volunteers will meet the delivery truck at their pre-determined rest stop and will set-up supplies such as tables, food and water. Volunteers are also encouraged to help cheer on the walkers as they pass. Help clean up the stop when the walk is over. This position is great for groups.

Delivery Support: Drive a cargo van and drop off rest stop supplies prior to and after the Walk. Be available for any last minute deliveries that may arise. A DMV background check is required.

Finish Line Cheerers: Cheer on walkers as they finish the walk. This position is great for groups.

Set-Up and Tear-Down: Help set up for the event and break down when the event is over.

Event Photographer: Capture those exciting moments by taking photos of the event at start and finish, and out on the route during the event. You will need your own equipment.

Team Tent Photographer: Take photos of teams as they check in at the Teams Tent. You will need your own equipment.
